

Digitisation Price Guide

Given the varying quality and type of source material it is impossible to provide definitive prices for all work. Please use the following prices as a guide to the overall cost of digitisation.

The costs listed are for basic digitisation and exclude post production, trimming and re-touching of digital files. If post-production is required it will be charged at a flat rate of £25 per hour.

Prices quoted do not include VAT.

Access Digital also offer direct photography of artworks and objects and can offer prices and specifications for this on request.

Please get in touch with us to discuss your needs and we will provide you with a detailed no obligation quote.
